## ***NA Export FF Change from Schenker to Ventana***

Dear Valued Supplier,

Please be informed that CNH has officially notified Schenker/DSV of the nomination of new freight forwarders for our Seafreight operations from North America.

We are going to transition the business to Ventana Serra (US) for Parts flows & JAS for Component/WMF flows. This setup will allow each forwarder to manage & focus on a single business flow.

For EMEA P&S, this change refers to shipments from US/CA/MX origins to CNH France, Italy, and South Africa - covering FCL, LCL, and consolidation sea freight. Intercompany & 3rd Party.

Planned transition date: November 1st, 2025
